

DEVELOPMENT OF ECONOMIC POTENTIAL IN THE AREA OF MÁTRA POWER PLANT

The 5 pillars of coal phase out programme (2021-2030)

1. CCGT

2. RDF/BIOMASS

3. PV

4. ECONOMIC DEVELOPMENT

5. CCS/CCU/HYDRO

Goals:

- ☐ Reducing CO₂ emission through technological restructuring
- ☐ Maintaining energy production capability in the long term
- ☐ Protecting employment

Economic Development projects

- **Goals:** retaining workforce, ensuring a fair transition in the Mátra region
- **Financing:** Just Transition Fund and other environmental and economic development funds

 **13+1** Projects

 **33** HUF billion investment

 **422** New / maintained workplaces

*Circular economy
and waste recycling*

*Research and
development*

Green transport

*Industrial
development*

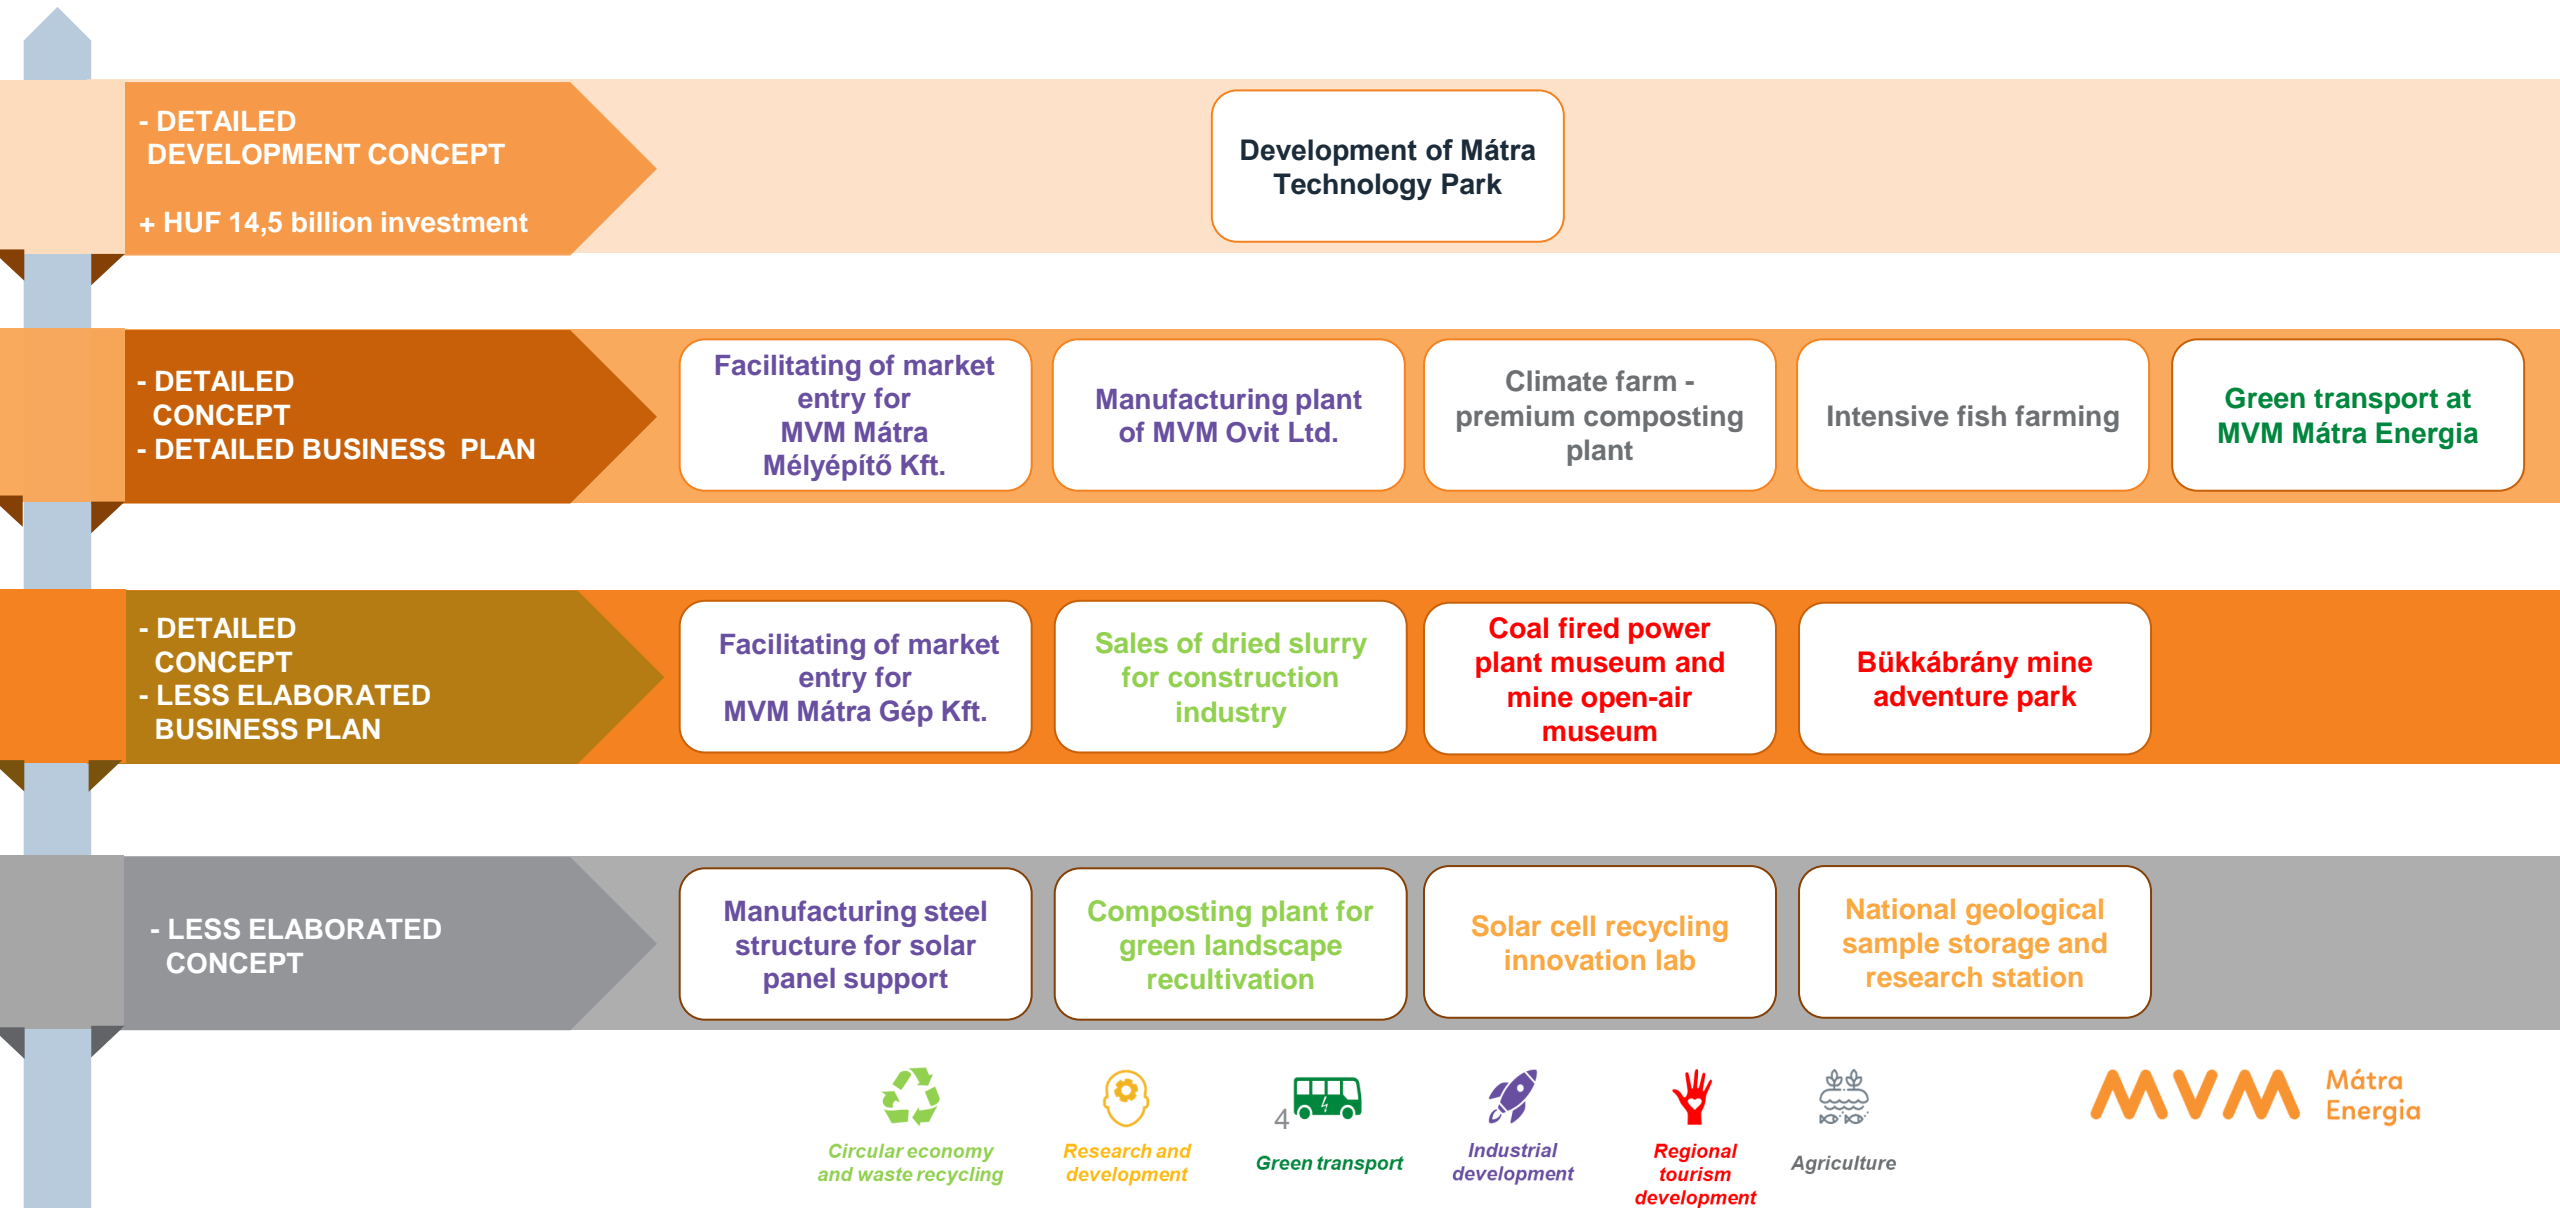

*Regional
tourism
development*

Agriculture

Current level of development of projects

Full range program management, further directions

Concept / deeper business plan development

Development of Mátra Technology Park

Composting plant for green landscape recultivation

Sales of dried slurry for construction industry

Facilitating of market entry for MVM Mátra Gép Kft.

Manufacturing steel structure for solar panel support

Tasks:

- Finalization of the concept
- Business planning
- Involvement of experts in preparation of tender documentation in relevant cases, and participation in tender
- Decision on implementation

Establishment of a consortium, tendering

National geological sample storage and research station

Solar cell recycling innovation lab

Coal fired power plant museum and mine open-air museum

Bükkábrány mine adventure park

Green transportation at MVM Mátra Energia

Tasks:

- Establishment of a consortium
- Developing a common concept for a consortium
- Consortium coordination
- Assignment of an expert in preparation of tender documentation
- Compiling tender documentation

Planning, implementation

Tasks:

- Involvement of experts in preparation of tender documentation in relevant cases, and participation in
- Finding potential contractors
- Competition management
- Selecting a contractor
- Coordination of implementation

Facilitating of market entry for MVM Mátra Mélyépítő Kft.

Manufacturing plant of MVM Ovit Ltd.

Intensive fish farming

Climate farm - premium composting plant

Circular economy and waste recycling

Research and development

Green transport

Industrial development

Regional tourism development

Agriculture

Need for partnering to exploit resources and expertise

13+1 Projects

with the municipalities of the surrounding settlements

with local, technological SME partners

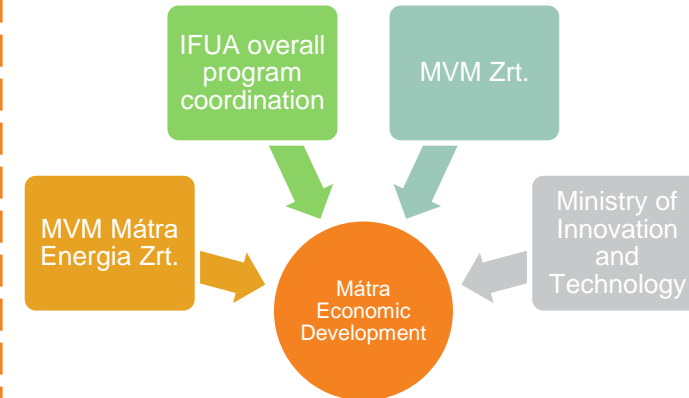

with the University of Miskolc and other research partners

with other partners, e.g.:

- MVM Group member companies
- Volán bus, NHKV
- Nitrokémiai Zrt.
- regional waste management facilities
- laboratory technology companies
- electronic waste processing companies

Program Governance Model

**THANK YOU FOR YOUR
ATTENTION!**
